# About LEES

Lees, power your life!

- Lees, reliable power supplier
- Lees, quality service provider
- Lees, comprehensive power solution expert

Lees is a worldwide company specialized in the manufacturing of a wide range of generator sets, from 8kva to 3000kva.

In the genset area, we offer solutions for every kind of power supply demand: energy where the national grid is not available, energy where it is necessary to operate without interrupting, energy for home, working and entertaining.

Lees owns high technological experience and the vertically integrated manufacturing processes which ensure that all our products are designed and delivered with top of quality and high performance.

All we products are dedicated to the most demanding markets, as a true symbol of our experience built under one mission: to offer the best value of generator sets by a strong strategic relationship with first level components partners.

We are with you in every kind of power need situation.

# About LEES

## Lees offer...

- Full range of diesel generator sets power from 8KVA to 3000KVA
- Professional power solutions for **commercial, residential, industrial** applications
- Engineering and project management include complete design and installation services
- Custom service according to customers' specific demands
- Updated innovation and continuous improvement
- Full-line original spare parts for all your demands
- 24/7/365 uninterrupted service and support

## Why Lees...

- Customer-focused  
Lees always puts customer as the No.1 priority. We devote not just to meeting their demand, but to exceeding it, with high quality products and service.
- One-stop manufacturing  
From design to production to delivery, we deal with a one-stop manufacturing service to assure the best quality control, and quick response.
- Easy to do business with  
We know that being flexible is important to you. That's why we offer custom solutions especially for you, helping you achieve your business goals.
- Dedicated to power solutions  
Our continued dedication to innovating and development ensures Lees is the most professional power solution supplier. We commit ourselves to supplying perfect power you can rely on.
- Big potential  
As the new entrant in the power industry, Lees is not the biggest, but Lees owns the best growth and largest potential. We make remarkable improvement and progress every year. You can rely on Lees to be your best and lasting power partner.

*One partner for complete electric power systems management solutions*

# About LEES

Certification

## What makes LEES so significant in generators?

- Cooperate with the world renowned manufacturer of diesel engine, alternator, controller
- Use the best quality components and material to produce Lees generator sets
- Updated technical innovation by Lees professional R&D team
- Strong marketing and sale network
- Complete line of accessories and spare parts with warranty
- Continuous improvement of products
- Strict quality control program: Incoming quality control (IQC) + process inspection + test inspection + delivery inspection

# Gensets General Instruction

## Identification

Take **LSC1000E3** as example, the generator set is powered by Cummins engine, standby power 1000KVA, three phase, and the generator set is open type.

		9-26 KW	11-31 KW
Vehicle range	Changchai engine	8 KW	12 KW
		Customized power is optional	

# Gensets General Instruction

Overview of genset appearance

## 1. Open type

### 1.1 Standard type

LSC55E3 - powered by Cummins engine 4BTA3.9-G2, standby power 55KVA

### 1.2 Enlarged fuel tank type

LSP440E3 - powered by Perkins engine 2206C-E13TAG3, standby power 440KVA, with 24 hours fuel tank

### 1.3 Heavy-duty type

LSC1375E3 - powered by Cummins engine KTA50-G3, standby power 1375KVA

# Gensets General Instruction

Overview of genset appearance

## 2. Silent type

2.1 Portable type (applied to Changchai range & YTO range )

LSD14S3 - powered by Changchai engine CZ480Q, standby power 14KVA

2.2 Super silent type (applied to Cummins range & Perkins range & FAWDE range & YTO range )

LSP33S3 - powered by Perkins engine 1103A-33G, standby power 33KVA

## 3. Vehicle type

LSK22V3 - powered by Kubota engine V2203-E2BG, standby power 22KVA, for vehicle use

# *Open type*

Superior quality generator sets from 8kva to 3000kva, powered by engines from world-renowned manufacturers.

## 1. Powerful engine

- Reliable, efficient engines are the heart of our generators. Lees works only with engine manufacturers with an excellent reputation for safety, dependability and longevity, such as Cummins, Perkins, YTO, FAWDE, Changchai, etc.
- The global service net provides reliable and guaranteed service.
- Compact structure & Low fuel consumption.
- High reliability, easy maintenance, long continuous running time.

## 2. Reliable alternator

- IP23 as standard
- Low frequency protection and exterior voltage adjustment. THF<2%, TIF<50
- 2/3 pitch winding as standard, to avoid excessive neutral currents
- Advanced AVR control system
- Voltage regulator accuracy within ±1.0%.

### 3. Intelligent control system

- Displays with indication of: phase to neutral voltage, voltage between phases, current per phase, frequency, power factor, kw and kva outputs, fuel level, engine speed, hours run, battery voltage and battery charge voltage.
- Engine and generator alarm for: battery charge failure, emergency stop activated, over-speed, under-speed, low oil pressure, high coolant temperature, low coolant level, low fuel level, overload, unbalanced voltage, over and under voltage, over frequency, short circuit, inverse power and incorrect phase sequence.
- Alternator alarms included: overload, unbalanced voltage, over voltage, unde voltage, over frequency, under frequency, short circuit, reverse power, and incorrect phase sequence.
- All protections are programmable to: warning alarm without engine shutdown or alarm with engine shutdown, with or without cooling period. Warning alarms for: low fuel level, battery voltage failure and battery charging alternator failure.

### 4. Human oriented design

- Both forklift hole and lifting lug for easy transportation.
- Front control cabinet and wiring cabinet for convenient operation.
- Convenient engine oil outlet, cooling water outlet, fuel outlet
- Lockable battery for safety operation.
- Vibration isolators between the engine/alternator and base frame.
- Emergency stop button.

### 5. Optional

- Mechanical or electronical governor.
- Enlarged fuel tank or external fuel tank
- Fuel water separator
- ATS

# Silent type

We develop and supply canopies, weatherproof enclosures and container packages for outdoor all weather-use in the harshest of environment with perfect performance to meet the most stringent specification.

## 1. Enclosure

- Lees weather-protective and sound-attenuated enclosures deliver superior durability, security and convenience.
- Constructions begin with corrosion-resistant galvanized steel components and is finished with scratch and rust-resistant powder-coated paint along with robust composite components.
- Rugged structure not only stable but also attractive appearance.
- Compact & Durable design with large doors for easy access to perform scheduled maintenance.
- Forklift pockets & lifting lug for easy handing and transportation.

## 2. Optional

- ATS
- Enlarged fuel tank for external running time.
- Fuel water separator.
- Water heater jacket.
- Parallel operation / GPS monitoring / Remote control
- All-in-stock accessories. Find all of your power generation needs under one roof. From engine parts, filter to electrical components, we have it all, and will send you all the necessary accessories by international courier service.

**Besides all the features open type genset owns, Lees silent type of generator set shares the following features:**

**3. The portable type**

- The control panel and wiring cabinet built on the side, for easy operation.
- The portable generator set is both compact and portable, easy for transportation. Take LSD17S as example, you can take 28 pcs for a 40 HQ'.
- They are the best partner for home/work use.
- The best price-performance ratio.
- Low operation cost and easy maintenance.
- Developed and researched independently by Lees technicians.

**4. The super silent type**

- The control panel and wiring cabinet built on the front side.
- High quality sound absorbing material / Silence and muffler pipe / Innovated inlet and outlet system / Smart design, Lees innovated all the noise-reduction technology, to effectively reduce the running noise, to 51dbA/7m.
- So that it is more environmental-friendly.
- The frame base is reinforced, so that it is harder and more stable.
- Widely used for plant, oil field, mining, and field which need quiet environment.
- Developed and researched independently by Lees technicians.

## **YTO Range**

***Superior quality generator sets from 8kva to 440 kva, powered by YTO engine***

YTO Group Corporation is a leading construction machinery manufacturer in China. Founded in 1955, YTO brand has been awarded China Top Brand and Recommended Export Brand, which are popular with customers all over the world.

YTO engine meet CE, EPA standard.

Lees YTO range of diesel generator set features compact structure, perfect portability, reliable power, and low emission.

**Comprehensive Power Solutions**

# *Changchai Range*

***Superior quality generator sets from 8kva to 40kva, powered by Changchai engine***

Changchai Co., Ltd. is not only a nearly century-old national industrial enterprise, but also one of the earliest internal-combustion engine manufacturers in China. It is the first listed company in the national agricultural machinery industry. Now, Changchai has both A and B shares. Its annual output can reach 1.2 million diesel engines. So far, it has manufactured more than 2,700 million diesel engines that ranked the NO.1 in the domestic market, and its products have been exported to 78 countries and areas.

Lees Changchai range of diesel generator set features compact structure, perfect portability, reliable power, and best price-performance ratio.

DONGFENG ENGINES LTD.

## *Cummins range*

***Superior quality generator sets from 22kva to 2250kva, powered by Cummins engine***

Cummins has distributors in 137 countries and regions, 5000 service networks spread all over the world, is one of the largest engine manufacturers in the world.

**Performance**---Wider power ranges mean greater versatility for use in more applications: commercial, institutional, industrial, utilities, communications, government and more.

**Lower operating and maintenance costs**---An increase in oil change intervals, longer life of components, longer top-end as well as full-overhaul periods, and reduced fuel consumption result in lower operating and maintenance costs.

**Easy operation**---Each generator set is equipped with a baseframe-mounted control cabinet, together with Deep Sea 7320 controller as standard, and integral circuit breaker, ensuring a dependable and user-friendly operating system.

**Improved serviceability**---Every Lees components was designed with serviceability in mind, resulting in simple, robust components that makes servicing fast and easy. The entire engine is built with internationally available tools and hardware.

ALEES

# ***Perkins Range***

***Superior quality generator sets from 8kva to 2475kva, powered by Original Perkins engine***

Perkins is one of the largest engine manufacturers in the world with more than 4000 business outlets, providing power to 5000 different applications with advanced technology.

Lees Perkins range of generator sets provide reliable power solutions for every business, every need. Prime power or standby service, diesel fuel generator sets deliver dependable, clean, economic power, even in the most demanding conditions – and are available in a wide range of configurations with optional equipment.

# FAWDE Range

***Superior quality generator sets from 13kva to 413kva, powered by FAWDE engine***

FAWDE (FAW Jiefang Automatic Co., Ltd., Wuxi Diesel Engine Works), is a professional diesel engine provider in China, doing business since 1943. FAWDE has a R&D pilot plant with the area of 4000m<sup>2</sup>, which adopts equipment from GROB, BW, and MANDELI. Owning total assets of 6.4 billion, intangible assets of 10.2 billion, FAWDE produces more than 600,000 diesel engines per year. Lees is the OEM partner of FAWDE.

Lees FAWDE range of diesel generator set features high reliability, powerful output, compact structure, as well as economic maintenance & operation cost. For economic power choice, you can rely on Lees FAWDE range.

# Vehicle Range

**The Vehicle range is designed especially for vehicle use.  
Power for 8kw, 12kw, 16kw (customized power is optional).**

- Especially designed for van-vehicle use, such as advertising car. Designed and researched independently by Lees technicians.
- Air side inlet and under outlet.
- Side control cabinet, for easy operation.
- The maintenance door opens upwards.
- Special designed shock pad for anti-braking.
- The whole maintenance door can be dismounted, for easy repair.
- Special designed heat-insulated foam ensures heat insulated from the van.
- Powered by Changchai or Kubota engine, for powerful output and reliable performance.
